Description:

Trick Eye Museum is finally here in Singapore. Get ready to let your imagination march into a miraculous dimension of original 3D artworks.

Trick Eye is short for 'Trick of the eye', which refers to an art technique that turns two-dimensional paintings into three-dimensional images through the use of optical illusions. With that, 2D paintings on the museum walls, floors and ceilings appear to pop out of the surface and come to life. Visitors are more than welcome to explore the various themed galleries with their eyes, hands and even cameras. Step inside the paintings to complete a visual narrative with your creative poses, and watch a "tricky" story unfold before your camera. At Trick Eye Museum, you'll be creating unforgettable memories with friends and family amid fun and laughter, with a dash of educational and cultural enrichment.
